

Less projectors more brightness

HALFPAR SERIES

Innovative line of high-power LED projectors that integrate the colour management of a show with the ability to manage the normal mixing of RGB colours with the correction of the colour temperature through the use of specially designed LED, such as "Cold White" and "Warm Amber" guaranteeing excellent color brilliance.

COMPACT

compact dimensions

STRONG

chassis die-cast aluminum

BRIGHT

powerful led source

SILENT

convection cooling without fans

VERSATILE

*double bracket for anchoring
in altitude and ground support*
