

EIKON

ENHANCE YOUR MONITORING EXPERIENCE

EIKON high-definition studio monitors have been designed to give your music the most honest and accurate reference possible.

From the carefully selected transducers to the proprietary waveguides, from the low-resonance cabinet design to the optimized electronics, everything has been tailored with hours of listening in order to offer the best accuracy and the maximum resolution over the whole audio spectrum.

The three models in the range, consisting of 5.25", 6.5" and 8", together with the 10" subwoofer, provide the perfect nearfield monitor solution for any kind of music production applications:
enhance your monitoring experience!
