

GF14L

The GF14L is a medium impedance pedal for use with keyboards and digital/stage pianos.

Description

The GF14L model is a Stereo Pedal with medium impedance; similar features to GF14, but for use with keyboards and digital/stage pianos. It uses a 20k Ohm potentiometer actuated by the pedal, and a lateral 100k Ohm potentiometer fixes the max output level (cable not included).

Technical Specifications GF14L

Construction materials: Thermoplastic ABS with rubber covered galvanized weighted base

Width: 93 mm

Height: 61 mm

Depth: 212 mm

Weight: 0.665 kg

Inputs: nr.2 mono jack female sockets o 6.3 mm

Input Impedance: 2 x 20K ohm ('long-life' linear keyboard potentiometer)

Outputs: nr.2 mono jack female sockets o 6.3 mm

Controls: Volume adjustment
