

SW115PV2

Compact passive sub-woofer in BPS configuration
(series-loaded bandpass)

Description

The SW Series is a range of sub-woofers designed to complement PROEL full-range passive or active speakers. The variety of size, power and SPL offered by the five SW models provides the perfect low extension solution for any speaker model available in the PROEL range.

All the SW models feature large VC woofers and band-pass or vented design, which provide very 'punchy', dynamic lows together with an extended low frequency response.

The cabinets are built with 15/18mm plywood and feature 2 or 3 metal handles and sturdy 75mm wheels for an easy transport (except SW110).

15 woofer with 3 VC for a quick and dynamic response

350 W AES power handling

Built-in passive crossover

SPEAKON connectors

SPL 1w/1m 97dB

Frequency response 40 Hz - 160 Hz

Plywood cabinet with two metal handles and four 75mm wheels

Technical Specifications SW115PV2

System type BPS enclosure subwoofer

Loudspeaker 15 woofer with 3" VC

Nominal Impedance 8 Ω

Power Handling (continuous) 350 W

Power Handling (program) 700 W

Power Handling (peak) 1400 W

Frequency Response 40 Hz - 160 Hz

Sensitivity 97 dB @ 1 W/1 m

Crossover Frequency 160 Hz, 12 dB/oct LP - 6 dB/oct HP

Connectors 2 x NEUTRIK SPEAKON (IN/OUT)

Weight 29 kg (63.9 lb)

Cabinet 15/18 mm plywood

Black anti-scratch paint

1.5 mm metal grille

2 x steel handles

1 x pole holder

4 x 75 mm wheels

Dimensions (W x H x D) 430 x 550 x 600 mm
