

# Loved by those who love **Music**

The new series of **PROEL HEADPHONES** was created from our partnership with a close-knit team of professional musicians.

The product range was shaped in terms of manageability, design, frequency response and sound accuracy based on the feedback from this team and discussions based around their needs.

Try them and you will immediately discover their strengths: transparent sound reproduction, excellent spatial resolution, solid construction, great aesthetics and competitive prices.

**PROEL HEADPHONES.** Loved by those who love music.
