

NEW FLASH XD

THE BEST FLASH EVER

PROEL 

FLASH XD

- Third generation of FLASH compact speaker systems, combining high-definition sound, reliability and rugged construction
- 1" compression drivers on wide-coverage constant directivity horn with long-excursion 8" and 12" woofers
- Newly designed 600W and 1000W light-weight Class D power amplifiers with SMPS, for a massive punch and a consistent reserve of power
 - High-definition CORE LT DSP signal processing with 24bit converters, for an outstanding sound definition and dynamic performance
 - Sophisticated Dynamic EQ, able to shape accurately the system's sound while maintaining a full dynamic range at any level
- Five DSP PRESETS (MUSIC, LIVE , DJ, MONITOR, SPEECH) to adapt the speakers to any kind of application
 - Best-in-class performance, features and style
