# S SERIES

- New range of compact and powerful sub-woofers, designed to complement full-range passive or active speakers at an unbeatable price point
- Four models (10", 12", 15" and 18") offering a variety of size, power and SPL and providing the perfect low extension solution for any speaker model available in the PROEL range
- Innovative Hybrid Band Pass configuration (HBP), providing higher efficiency and lower distortion, for a more defined sound and deep and punchy lows
- New 700W and 1200W CLASS D amplifier modules with SMPS (Switch Mode Power Supply), for a massive amount of continuous power in a compact, lightweight and reliable package
- STEREO pre-amp section, 24dB/oct. crossover filters with selectable frequency and PHASE reverse switch
- Cabinets built with 15/18mm plywood and finished with extra-durable polyurethane paint
